PROFESSIONAL SUMMARY

Full Stack Software Developer with 1.7+ years of experience engineering production-grade enterprise web applications utilizing Laravel, Vue.js, and MySQL. Proven track record in optimizing database queries, building real-time SPA architectures, and deploying secure, scalable financial and ERP modules. Skilled at translating complex client business workflows into robust technical solutions that improve operational efficiency.

PROFESSIONAL EXPERIENCE

Junior Software Developer

Innovation Information System Ltd., Dhaka | Jan 2025 – Present

- Developed and maintained **3+** enterprise web applications using Laravel, MySQL, and JavaScript with focus on security and scalability.
- Optimized relational database queries and schemas for **100K+** records, improving application performance by **30%**.
- Collaborated with teams to convert client requirements into production-ready features across frontend and backend systems.
- Managed deployments using CyberPanel and cPanel, maintaining stable production environments and resolving **40+** critical issues.

NOTABLE WORK

RecipeSys – Restaurant Management System — *Laravel · MySQL · Bootstrap · JavaScript*

- Built restaurant management platform with POS, inventory, kitchen workflow, and reporting modules.
- Developed Admin & Accounts features for financial operations using Laravel Eloquent ORM.

DFMS – Document & Finance Management System — *Laravel · MySQL · Bootstrap · JavaScript*

- Developed and deployed document and financial workflow automation systems.
- Implemented document tracking, ledger management, payment tracking, and database architecture supporting **100+** client-shipment relationships.

PrintMIS – SaaS based Printing Management System — *Laravel · MySQL · Bootstrap · JavaScript*

- The complete **SaaS** solution tailored for printing businesses. Manage accounts, cylinder inventory, and job tracking all in one powerful platform

PERSONAL PROJECT

Career OS – AI-Powered Resume Analysis & ATS Platform

Stack: Laravel 12 · React.js · Zustand · Zod · Tailwind CSS · REST API · OpenAI API

- Built an AI-powered ATS platform that analyzes resumes, extracts candidate information, and matches profiles with job descriptions & tracks job applications.
- Developed a full-stack architecture with Laravel APIs, React frontend, OpenAI integration, background queue processing, and asynchronous AI workflows.
- Implemented secure authentication with Google OAuth, token-based API access, Zustand state management, and real-time processing status updates.

Resdine ERP – Restaurant Management & POS System

Stack: Laravel + Inertia.js + Vue.js + Tailwind.css

- **Full-Stack Architecture:** Engineered a modern Single Page Application (SPA) using a Laravel backend and Vue.js frontend (via Inertia.js) to deliver a seamless, fast-loading user experience.
- **Real-Time Operations:** Implemented live order tracking and stock/inventory management by leveraging WebSockets, reducing synchronization delays across the kitchen and POS terminals.
- **Security & Access Control:** Developed a dynamic menu system featuring drag-and-drop sorting and a strict Role-Based Access Control (RBAC) system to secure sensitive administrative and financial modules.
- **Financial Integrity:** Integrated a secure payment processing gateway alongside an automated HR & Payroll subsystem to manage real-time billing and workforce expenses.

TECHNICAL SKILLS

- **Software Architecture:** System Design, Multi-Tenant Systems, ERP Architecture, REST API Design, Relational Database Design
 - **Backend :** PHP, Laravel, Eloquent ORM, Query Optimization, Service Containers, Role-Based Access Control (RBAC), WebSockets
 - **Frontend:** React.js, Inertia.js, Vue.js, Tailwind CSS, Axios, Bootstrap
 - **DevOps & Infrastructure:** Docker (Basic), Linux VPS Administration, Production Deployments
 - **Database & AI:** MySQL, PostgreSQL, Schema Optimization, OpenAI API Integration
 - **Tools:** Git, GitHub, VS Code, Chrome DevTools
-

EDUCATION:

Bachelor of Science – Computer Science & Engineering

Daffodil International University (DIU), Dhaka | 2020–2024 | CGPA: 3.71/4.00

HSC (Science) | Sirajganj Govt. College | GPA: 4.25

SSC (Science) | Power Development Board Secondary School | GPA: 5.00

LANGUAGE PROFICIENCY:

- **Bangla (Native)** : Fluent | **English** : Comfortable | **Hindi** : Conversational
